

Montgomery County Electronics Programs (Including TVs and Computers)

Although state law requires electronics manufacturers to offer recycling opportunities for TVs and computers, those manufacturers are no longer sponsoring county recycling collections in the Southeastern Pennsylvania region. A summary of the situation and a list of drop off sites is available at <http://www.montcopa.org/index.aspx?NID=707>

An amendment to the state electronics recycling law, called the Covered Device Recycling Act, is needed to ensure the availability of recycling outlets. For an overview of the Covered Device Recycling Act please see the above MontCo website link.

Concern about the lack of disposal options for TV's and computers should be directed to the appropriate State Representative and Senator.
