2023 TRANSPORTATION IMPROVEMENTS

The following is a list of “**tentative**” capital road improvement projects approved, funded, and scheduled for 2023. As always, we evaluate these road projects following each winter season, and our roads will be evaluated during the spring. As mentioned, this is a tentative list of improvements and may change due to needs and budgets.

The Public Works Department will also be performing other types of road maintenance such as: line painting, roadside mowing, clearing sight lines, base repairs, roadside ditch work and sign maintenance, however; the following projects are noted as they may, at times, cause temporary delays or detours during the construction phases. The Department will make every effort to accommodate local traffic, however, for the safety of you and the workers on the road, please obey all Work Zone Traffic Control Signs, Flagmen directives, and marked detours. As a reminder, all fines are doubled in all Work Zone Traffic areas within the Commonwealth of Pennsylvania. Allow some extra time in your daily commutes to avoid unnecessary frustration while transitioning through the work zones and detours. For more information, contact William Bradford, Superintendent of the Public Works Department. Please note “others” than the Public Works Department is performing some of the following projects. They are identified as follows:

- Essential Utilities Inc. Sewer Department, (610) 792-2112
- American Water Co. (610) 948-1781
- Pennsylvania Department of Transportation (610) 275-2368

Expect one lane closures and delays during all road construction work!!

“SAFETY IS AS SIMPLE AS ABC, ALWAYS BE CAREFUL”

Check For local road projects @ www.limerickpa.org

Other road projects that may take place on non-Township & State roads:

Please see [PennDot's website](#) for sweeping operations & paving operations:

**Lewis road storm sewer work, near West Cherry
Lewis's road water line and sidewalk project
Game Farm Road storm sewer and drainage work
Paving Sections of Linfield Trappe
Lightcap road/Evergreen Road, utility installations**

Expect delays in those areas as well.

Note: All the projects listed are flexible and subject to change due to budget and/or weather conditions. Dates and times are "tentative schedules." Please continue to check our website for changes in road projects as well as roadwork notices.

Crews will also be performing line painting throughout the spring and summer. Please avoid driving on fresh paint. Crews will be performing right-of-way mowing, vegetation control and sight distance trimming as well.

All these projects will require the department to perform prep work. Base repairs will take place as well as some crack sealing in house. All the drainage updates will be done by Township forces ahead of the improvements. The department will also perform the construction site work for Limerick Community Park extensions. With these projects and our regular routine maintenance, the department will have a full workload for the season.

Annual street sweeping is scheduled to begin on or around the week of April 10th and should wrap up by April 28th, weather permitting. Please do not park on the streets from April 17th through April 28th during the times of 7am to 3pm if possible. Crews will not return to sweep areas where cars had been parked.

During the busy spring and summer months please obey all Work Zone Traffic signs, the crews are busy making the roads safe for all to travel.

**"THE DRIVER ON THE HIGHWAY IS SAFE NOT WHEN
THEY READ THE SIGNS BUT WHEN THEY OBEY THEM"**

NOTICE:

Limerick Township Public Works Department will be applying vegetation and weed control products within the Township curb line and right-of-ways. Products applied will include, but not limited to: Accord XRT II, Plateau, 41- A drift control, Esplanade 200 SC. These products will be applied to areas around signposts, Utility poles, guide rails, culverts, inlets, curbs, and sight lines within Township right of way. Spraying will begin; weather permitting, early May 2023. For additional information, contact Dave Myer at 610-495-6432 x 163.
