Lewis Road

**The Lewis Road Improvement  
Project is underway!**

Find the hidden shamrock! (This is the exact size & color you are looking for... ).  
See the back page for more information. Have fun in your search!

# Message from the Chairman

**Kenneth W. Sperring, Jr.**  
*Chairman*

## *Long-range planning...it's at the core of what we do.*

As we begin the construction phase of the Lewis Road Sidewalk and Improvements project highlighted in this newsletter, it is important to note that projects of this scale require many years of planning and preparation. What began in 2016 as an effort to improve pedestrian safety with the installation of sidewalks to the Spring-Ford Area School District facilities on Lewis Road, the project has since expanded to include much-needed stormwater improvements and curbing to address long-standing drainage issues impacting vehicular traffic. The objective of the Board was to offset project costs with state roadway grant programs. Planning and persistence is paramount in the grant application process; the Township's efforts resulted in \$1,103,421 of outside funding that will cover approximately 70% of the project costs.

We express thanks to State Representative Joe Ciresi who supported the Lewis Road project and helped Limerick obtain these grant funds, and also for his efforts to help secure \$675,000 in state recreational grants, which will cover 50% of the costs of the long-awaited first phase of upgrades to Limerick Community Park.

Like the Lewis Road project, the park improvement project, which will take place over the next 2 years, required a multi-year planning effort and once completed, will provide new amenities for our community such as tennis and pickleball courts, expanded trails, multi-purpose and ball fields. Look for further updates on both the Community Park and Lewis Road projects on the Township website, [www.LimerickPA.org](http://www.LimerickPA.org), and the Township's Facebook and Twitter accounts.

Long-range planning is also ongoing in other areas as well, such as with our local fire and EMS agencies, to ensure they can continue to provide the vital public safety services this community is accustomed to receiving, while meeting the challenges of inflation.

Discussion and planning also continue on road improvements required to meet not only the needs of our residents, but to address the increased traffic within our community from growth that is occurring within the Tri-County region.

Our continual long-range planning efforts over the decades have resulted in a strong financial structure for our Township, enabling the Township's portion of Real Estate Taxes to consistently be lower-than-average, when compared to all other 62 Montgomery County municipalities.

As the Board studies the services this community will require in the future, our planning efforts and focus will remain on maintaining low Township tax rates, while still providing for high-level core services that make Limerick the great community it is.

I wish you a great summer season - and with proper planning, I'm certain it can be one of your best yet.

*- Ken*

# Lewis Road Improvement Project

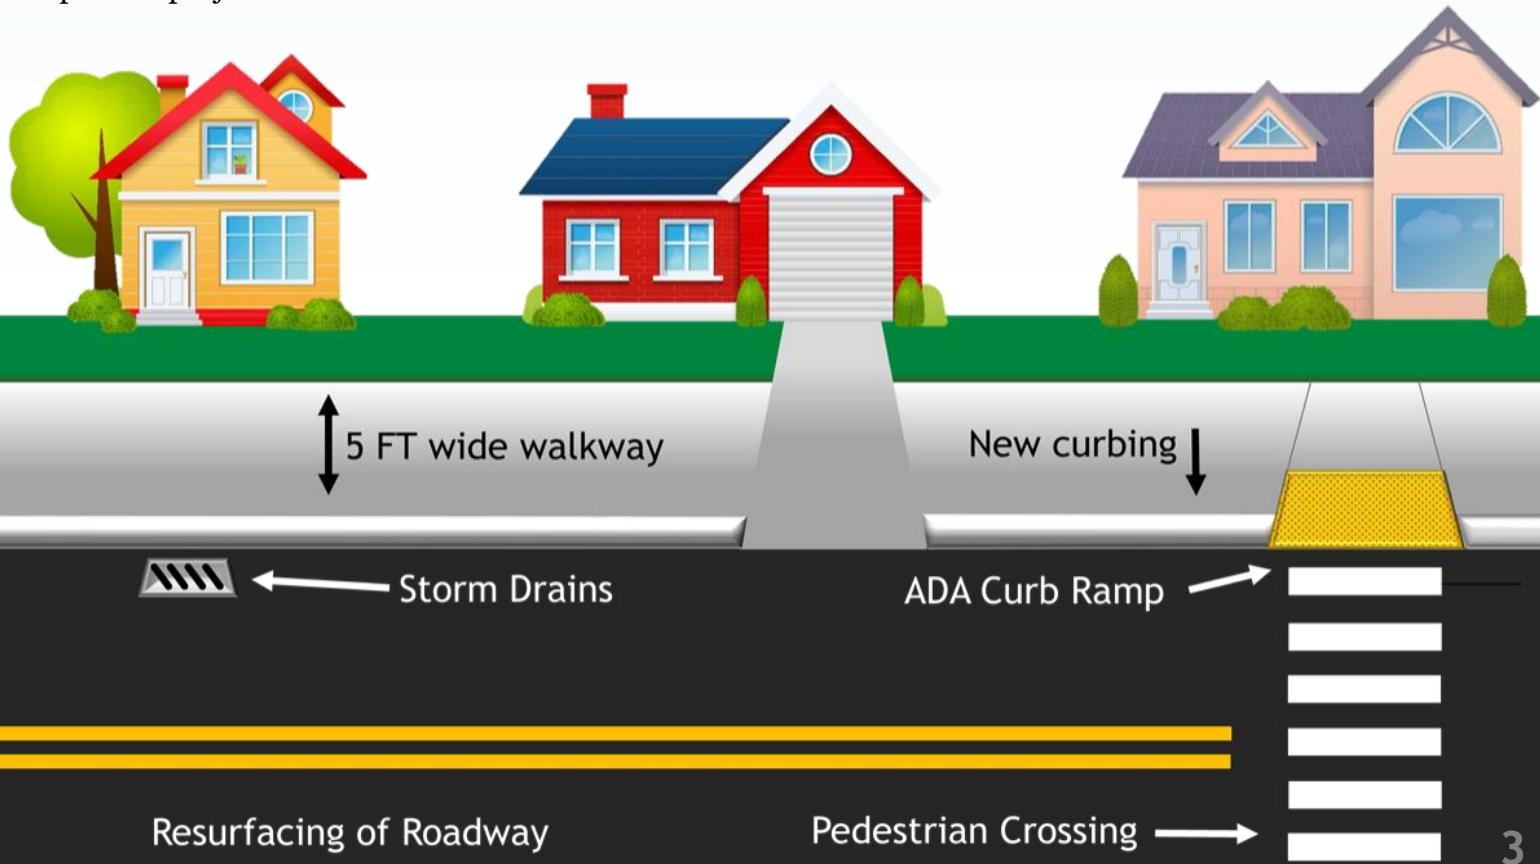

## Lewis Road

Limerick Township is excited to announce that a much-anticipated community improvement has arrived on Lewis Road! The improvement consists of the installation of approximately 4,050 linear feet of sidewalk (installed on the East side only due to increased costs), concrete curbing, crosswalks, and ADA ramps from S. Limerick Road to the Spring-Ford Area High School. The project also includes the installation of stormwater control measures. The proposed improvements will enhance the safety of both pedestrians and motorists along the Lewis Road corridor. The project will continue through September, with the anticipation of PennDOT repaving Lewis Road in early fall. The Township would also like to thank Royersford Borough and Upper Providence Township for their support in bringing this project to reality.

The original project cost was estimated at \$1.1 million in 2019 and the Township secured a Commonwealth Financing Authority (CFA) Multimodal Transportation Fund (MTF) Grant in the amount \$783,421, with Capital Reserve funds and neighboring municipalities contributing the required matching grant funds. However, during the PennDOT approval process, additional design changes were required which delayed the project and increased costs. Inflation also became a factor and the project cost rose to \$1,598,697. Fortunately, State Representative Joe Ciresi was able to secure additional funding through the COVID-19 American Rescue Plan Act (ARPA) grant program from Pennsylvania's Department of Community and Economic Development (DCED) in the amount of \$320,000, to close the remaining gap in project cost funding needed to keep this important project on track.

# Limerick Recognitions

**Shaun Semmeles**  
Township Fire Marshal

## Limerick Township Fire Marshal receives Commendations

On September 15, 2022, during an FBI Post Blast Investigation training course, an explosive device prematurely detonated and caused catastrophic injuries to multiple individuals.

Limerick Township Fire Marshal, Shaun Semmeles, immediately responded to the aid of others. It is certain that the heroic actions of Shaun helped save the lives of those injured that day.

In recognition of his lifesaving actions, Shaun was presented with Commendations from the Board of Supervisors and the Montgomery County Sheriff's Department. Additionally, he received the Spring-Ford Community First Responders Award from the Spring-Ford Chamber of Commerce.

## Limerick Township receives 2023 Road & Bridge Safety Improvement Award

Limerick Township's *Sanatoga Interchange Improvement Project* has been selected as the Roadway Category winner of the **2023 Road & Bridge Safety Improvement Awards**.

The Sanatoga Project was selected by a panel of judges representing PennDOT and the Pennsylvania Highway Information Association (PHIA). Representatives from the Township were present to accept the award at the April PSATS Educational Conference in Hershey.

*From left to right: Steven Hess, PSATS Executive Board; Larry Shifflet, PennDOT;*

*(From Limerick Township: Linda Irwin, Supervisor; Kara Shuler, Supervisor; Daniel Kerr, Township Manager);*

*(From Limerick Township Traffic Engineers, Traffic Planning & Design: Joseph Platt and Kyle Miller); Jason Wagner, PHIA*

# An important service announcement from PECO

AN EXELON COMPANY

This project is part of PECO's overall system investment of \$6 billion during the next five years to inspect equipment, complete targeted system enhancements and corrective maintenance, invest in new equipment, and perform vegetation management work. This also includes PECO's Reliability & Resiliency Plan, which will help to prevent customer outages, modernize the electric grid, reduce the impact of extreme weather on electric infrastructure, and support the adoption of clean energy resources.

**About the Project:** PECO will be upgrading and installing new, innovative equipment, including new poles and tree-resistant aerial wires to provide you with safe and reliable service and meet the evolving needs of their customers. In addition, advanced devices will be installed that can stop the flow of electricity on the line if a problem occurs and automatically restore electricity where possible. As part of this work, an enhanced vegetation management program will begin across the region to reduce the number of outages caused by trees and other vegetation. All work will be performed by PECO crews and qualified PECO contractors.

**Vegetation Management:** PECO will invest an additional \$320 million on vegetation management across approximately 600 miles of aerial electric lines during the next 10 years. This will include tree trimming and tree removals and may involve rear property tree trimming and removals. PECO will notify customers if any tree work must occur on their property and will work directly with those customers to develop a plan. PECO works with certified arborists and professional foresters and adheres to national ANSI A300 standards when managing tree trimming and removal.

**Timeline:** Tree trimming work is scheduled to begin in May 2023 and work on electrical equipment, including poles and wires, is scheduled to start once tree trimming work is complete. The project is expected to be completed in July 2023.

Crews may need to temporarily interrupt electric service to safely complete some of this work. PECO will work with customers to ensure they are informed in advance of any activities and any planned interruptions. To ensure you receive all outage updates, please confirm that your phone number is accurate through the [MyAccount](http://peco.com/myaccount) system at [peco.com/myaccount](http://peco.com/myaccount) or by calling PECO at 1-800-494-4000.

PECO will also work closely with local officials to minimize the impact on traffic and pedestrians whenever possible. Access for services such as trash removal, student transportation and emergency vehicles will be maintained during construction.

If you have any questions regarding the details of this project and how it may impact you, please contact Brianna Ferrell, Customer Service Liaison, at [Brianna.Ferrell@exeloncorp.com](mailto:Brianna.Ferrell@exeloncorp.com).

## POOL SAFETY

If you own a home with a pool, or are visiting a home with a pool, take steps to protect children from drowning.

Drowning is the leading cause of death for children ages 1-4 years. Many of these children drown in pools at people's homes - often during times no one was supposed to be swimming. Children can climb out a window, crawl through a doggy door, or exit an unattended door to get to the pool. Drowning is silent and happens in minutes.

Pools should have a fence that surrounds all four sides, especially the side that separates the house from the pool. The fence should be non-climbable, at least 4 feet high, and have a gate that is self-closing and self-latching.

Swimming lessons can help reduce the risk of drowning for children. Some kids may be ready to start swim lessons after age 1.

An adult should **CONSTANTLY WATCH CHILDREN AT ALL TIMES** when they are in or by the pool.

Learn CPR.

Pool covers, door alarms, window guards and pool alarms can be additional layers of protection when used with a fence.

healthychildren.org  
Information for parents, caregivers, and health professionals

American Academy of Pediatrics  
DEDICATED TO THE HEALTH OF ALL CHILDREN

Keep toys out of the pool when not in use.

## FIREWORKS SAFETY

Prior to the use of any fireworks, we ask that you become familiar with the Township's regulations regarding times and locations on your property in which they can be utilized.

**DO NOT** ignite consumer fireworks after 10:00 P.M.

The following are exceptions:

4th of July - 11:00 P.M.

New Year's Eve - 12:30 A.M. on New Year's Day

Please keep your fellow neighbors in mind when outdoors with common courtesies used for the volume of music and the use of fireworks.

Some residents may be more sensitive to noises and animals can get anxious. With advance notice, your neighbors can secure their animals and take measures to prepare themselves.

## Boating & Water Safety

1. Wear your life jacket at all times.
2. Boat sober and be considerate of others.
3. Be aware of weather and water conditions.
4. Carry all required safety gear.
5. Use your engine cut-off switch.
6. File a float plan.
7. Take a boating safety class.

# Summer safety tips

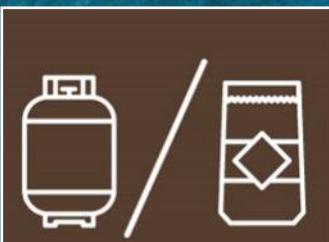

## HOT ASPHALT!

Air Temp.	Asphalt Temp.
77°	125°
87°	143°
95°	149°

At 125° skin destruction can occur in just 60 seconds. Always check the asphalt prior to allowing your pet to walk on it.

## PAWS WILL GET BURNED

**TIP:** If it's too hot for your bare feet, it's too hot for theirs!

Always grill outside with propane and charcoal

## Grill Safety

Don't grill near any structures that may catch fire

Don't allow children or pets to play near grill

Keep a fire extinguisher handy and never leave your grill unattended

## Pet Friendly Summer Tips

**CAR TRAVEL**  
Never leave your pet alone in a hot car! When traveling, use a secured crate, harness system or pet safety belt.

**TOXIC CHEMICALS**  
Keep pets away from bug spray, insecticides, citronella products and sunscreen.

**STORM PREP**  
Create a disaster kit with food, water and medication that can last 5 days.

**HYDRATE**  
Look for signs of overheating like excessive panting, drooling and weakness. Keep plenty of water on hand.

**FLEAS & TICKS**  
Give your pet proper flea and tick medication, and check them regularly with a flea comb.

**STAY INDOORS**  
During fireworks and thunderstorms, keep pets secure in a safe, quiet area at home.

**WATER SAFETY**  
Never leave pets unattended at the beach, lake or pool. When boating, use a pet life jacket.

# Public Safety Update

## Serving our community

In the age of declining volunteerism, reduced funding from healthcare insurance providers, and rising costs of operations, local volunteer fire departments and Emergency Medical Service (EMS) providers are faced with increasing fiscal challenges. Since Pennsylvania law mandates that municipalities are financially responsible for ambulance and fire services, funding for these services is becoming a formidable challenge for communities across the Commonwealth; Limerick Township being no exception.

**Fortunately, our Township is home to one of the strongest volunteer fire departments in Pennsylvania. Limerick Fire Department's volunteer structure currently in place, is saving taxpayers \$5 Million dollars annually! However, the reality that more and more fire departments are transitioning to paid personnel because of declining volunteers, is a stark reminder that planning for the future is vitally important.**

The successful merger of Linfield and Limerick Fire Companies, into the single Limerick Fire Department, also provided additional cost savings. The Township fully supported our volunteers in this effort to establish a single organization, which reduced redundant equipment and apparatus, and improved operational efficiencies all without a reduction of the important emergency services they provide.

To address the declining ranks all EMS agencies face because of increased operational costs and below average pay levels, the Township also supported the merging efforts of Harleysville and Trappe Ambulance companies to become the newly formed Freedom Valley Medical Rescue (FVMR). The Board's commitment to increase funding to FVMR came with the benefit of eliminating the need for their organization to solicit each year for membership subscriptions from residents within their coverage area. The Board also worked with Friendship Ambulance on providing additional support that eliminated the need for their subscription program as well. The elimination of these subscription drives provides same-level coverage for all Township residents served by these organizations, while helping to reduce their fundraising time and administration costs.

While these measures have helped, rising operational costs and funding challenges of providing emergency services to a community are here to stay. However, through long-range planning efforts, a commitment to analyze all fiscal options, and ongoing discussions with these organizations, the Board of Supervisors will continue to look for innovative ways to support our emergency service organizations in a manner that will be beneficial to everyone.

# Be kind to the environment this summer

## Water Saving Tips in outdoor spaces

**LEAVE IT TO THE PROS**  
tunnel carwashes use up to 75% less  
water than the at home DIY method and  
often reclaim + reuse water  
BONUS!: prevents nonpoint source pollution

**DON'T BE SPLASHY**  
sweep walkways, patios,  
steps, etc. instead of  
hosing them down

**GET CONTROL**  
an automatic  
shut off nozzle  
prevents waste

**RE-WILD  
YOUR YARD**  
native plants are  
adapted to our  
climate so need less  
water + care to  
survive and thrive  
BONUS!: pollinators + wildlife  
will love you & your yard

**WATER STRATEGICALLY**  
feel soil to determine need,  
then reduce evaporation by  
watering deeply before  
10am or after 5pm

**DO DETECTIVE WORK**  
read the water meter before and after a  
two-hour period of no water use; if the  
meter does not read exactly the same,  
there is a leak

**INSTALL A  
RAIN BARREL**  
save over 1,300 gal  
during summer months

**COVER UP**  
a thick layer of mulch  
promotes moisture  
retention in your garden

## *Plant a container full of natural mosquito repellents!*

First and foremost, remove any standing water from your deck or yard. Change out the water in bird baths every few days and make sure fountains have a strong enough flow to discourage mosquitos from laying eggs on the water.

There are many plants that are believed to be natural mosquito repellants, but not all of them are pet friendly. Citronella, while highly effective against mosquitoes, is deadly to dogs & cats, as are Geraniums, certain varieties of Marigolds and Garlic plants. When selecting your plants, be mindful of those which may be toxic for your fur-family.

### Pet Safe Repellents:

Lemon balm - Basil  
Catnip - Rosemary

# ACCEPTABLE HOUSEHOLD MATERIALS

PAINT PRODUCTS	OUTDOOR PRODUCTS	AUTOMOTIVE PRODUCTS	HOUSEHOLD PRODUCTS	HOUSEHOLD OTHER
Turpentine	Swimming Pool Chemicals	Grease & Rust Solvents	Drain Openers	Acids, Caustics, Solvents
Paint Thinners	Weed Killers	Fuel Additives	Rug Cleaners	Flammables
Strippers & Removers	Septic Tank Degreasers	Carburetor Cleaners	Wood & Metal Cleaners	Oxidizers, Reactives
Oil-Based Paints	Asphalt Sealers	Transmission/Brake Fluid	Mothballs/Flakes	Lead
Stains, Varnish	Caulking Compounds	Antifreeze	Adhesives/Solvents	Aerosols
Shellac	Joint Compound	Car(lead-acid), Truck, Motorcycle, Marine, Batteries	Rechargeable Batteries, Lithium, Ni-Cad, Button, Lead Acid	Mercury (Thermostats & Thermometers)
Other Solvent-Based Paint Products	Roof Cements	Gas, Oil, Gas Oil Mixture	Spot Removers, Dry Cleaning Fluid	Fluorescent Tubes and CFLs
Wallpaper Cement	MINI Propane Tanks, No BBQ Tanks	Road Flares, No Marine Flares	Fire Extinguishers	Ballast (must be removed from light fixture)
Spray Paint	Pesticide		Kerosene	Electric Oil-filled Heaters

# UNACCEPTABLE MATERIALS

Explosives & Ammunition	Electronics/Televisions	Asbestos	Appliances/White Goods
Infectious or Medical Waste, Prescription Drugs	BBQ-Sized Propane Tanks (leave at local exchange sites)	Radioactive Waste	Freon/Refrigerants
Tires	Helium Tanks	Unidentified Waste	25- or 50-Gallon Drums
Latex Paint* (Water-Based)	Gas Cylinders	Alkaline Batteries (Trash)	Smoke Detectors

\* Take off lid, dry out paint, discard can without lid; or pour paint into plastic bag with absorbent material (clay based kitty litter, saw dust, rags) place bag and can without lid, in trash. Paint hardener can also be purchased at hardware stores.

# DROP OFF GUIDELINES

- Montgomery County events are following state guidelines and public health restrictions.
- Leave items at home that are not for the event so that they are not removed accidentally.
- If you need your gas can or container returned, please tape a note to it stating that you want to keep it.
- You may arrive any time within your registered appointment window.
- Please print out your ticket or write your name and appointment time on a piece of paper.
- If you cannot attend the event, please cancel your appointment through your Eventbrite ticket or by emailing [Recycling@MontgomeryCountyPA.gov](mailto:Recycling@MontgomeryCountyPA.gov), as others may be waiting for an opening.
- NO TVs, electronics, or appliances will be accepted.
- Event workers will unload your materials so please remain in your vehicle.
- BUSINESSES AND CONTRACTORS WILL BE TURNED AWAY**, no commercial/industrial waste accepted.
- Bring all substances in original containers with labels. Items must be identifiable. Do not mix materials.
- Tighten lids on all containers. If containers are leaking, pack in larger container with newspaper to soak up leaks.
- NO 25- OR 50-GALLON DRUMS ALLOWED**. Five-gallon buckets are the largest acceptable container. Maximum amount accepted per vehicle is 25 gallons or 220 pounds.
- There are no permanent drop off locations in the region for household hazardous waste, only the listed collections.

# CREATIVE CARTOONING

An Inspiring Camp for Aspiring Artists

THURSDAY

JULY 20th

9:00 am - 12:00 noon

Limerick Township  
Building

These days, **Cartoon art** is everywhere from comic books to animated films and video games. For kids with a sense of humor and an urge to draw, here's a great chance to get in on the action.

Artist **Mr. David C. Perry** provides participants with step-by-step instruction, hands-on helpful hints and an array of cool resources for further inspiration.

In a fun, positive atmosphere, children are encouraged and empowered as they explore a variety of themes:

- Funny Faces
- Comical Critters
- Super Heroes
- Comic Strips/Books

## FUNNY FACES

Emotion, expression and personality – including emojis & caricatures

## COMICAL CRITTERS

The animal kingdom featuring famous and fantastic beasts

## SUPER HEROES

In a range of shapes sizes, powers, styles and costumes

## COMIC STRIPS/BOOKS

Traveling through time and space via visual storytelling

# RED CROSS BABYSITTER'S CLINIC

Date: Sunday, September 24th

Instructor: American Red Cross

Time: 11:00am-4:00pm

Location: Limerick Township Building

Ages: 11-15 years

Fee: \$80

\* Please bring a pen and lunch\*

Pre-Registration Required  
[www.limerickpa.org](http://www.limerickpa.org)

- Basic-level American Red Cross course provides youth who are planning to babysit with the knowledge and skills necessary to safely and responsibly give care for children and infants.
- Develop leadership skills
- Learn how to develop a babysitting business
- Keep themselves and others safe
  - Help children behave
  - Learn about basic child care
  - Basic first aid

Upon successful completion of this course, you will receive a digital certificate for Babysitter's Training.
