Bill Ben

Message from the Chairman

Kara Shuler
Chairman

I am pleased to serve as the new Board Chair and continue to work with my fellow Board colleagues on the important issues facing our community. The ongoing struggles of local volunteer fire departments and Emergency Medical Services (EMS/ambulance) is one such challenge that cannot be ignored. Over the past several years, much has been discussed regarding these issues and the Township has been able to provide financial support within existing tax revenues, to support the emergency response agencies that serve Limerick. Recent news articles have highlighted the closures of many EMS organizations which place strains on the remaining regional providers, also struggling financially due to rising operational costs and dwindling insurance reimbursements. Inflationary impacts are also challenging our local volunteer firefighters and their ability to provide emergency fire and rescue services.

While higher tax rates are never an ideal solution, an immediate need to stabilize our local agencies was apparent and the Board approved an increase in real estate tax rates, specifically for both these emergency service agencies. Inside this newsletter (on page 10) is an explanation of your new real estate tax bill. I ask that you please review the information to gain an understanding of how the new funding will be allocated.

We also highlight the great work of the many volunteers who serve the Township. They offer their time and talent and assist the Board with planning, zoning, park, recreation and open space, and other important issues within our community. These volunteers strengthen the fabric of our community and have helped make Limerick the great place we all call home.

The Township is always in need of new volunteers, and we invite you to step forward and join us and place your own handprint on the future of our community. Information is provided inside this newsletter on the work of our volunteer Boards, Commissions, and Committees and available positions and opportunities for those who wish to serve.

I wish you all a wonderful Spring season!!

- Kara

This year's 2024 Primaries in PA are in April!

In PA, this year's primary election is on Tuesday, April 23rd.

April 8 – Last day to register to vote

April 16 – Last day to request a mail-in or absentee ballot

Q & A with Ryan Wall

Ryan Wall
Township Tax Collector

Property Tax/Rent Rebate Program Expansion

What changed?

The Pennsylvania Legislature passed an expansion of the Property Tax/Rent Rebate program starting in January 2024. Thanks to the passage and signing of HB 1100, the income limit rose from \$35,000 to \$45,000 for homeowners and renters, and the maximum rebate increased to \$1,000. There is also a cost-of-living adjustment that will keep pace with inflation. Raising the income limit is expected to help nearly 175,000 additional Pennsylvanians qualify for the rebate, and the nearly 400,000 Pennsylvanians who already qualify for the program will see their rebates nearly double.

Who qualifies?

The rebate program benefits eligible Pennsylvanians age 65 and older; widows and widowers age 50 and older, and people with disabilities age 18 and older. The income limit is \$45,000 a year for homeowners and renters, and half of Social Security income is excluded.

Did the rebate amounts change? Yes they did. See below...

2022 Income:	2023 Rebate received:
\$0 to \$8,000	\$650
\$8,001 to \$15,000	\$500
\$15,001 to \$18,000	\$300
\$18,001 to \$35,000	\$250

VS.

2023 Income:	2024 Rebate to be received:
\$0 to \$8,000	\$1000
\$8,001 to \$15,000	\$770
\$15,001 to \$18,000	\$460
\$18,001 to \$45,000	\$380

How can I apply?

You can pick up an application

schedule an appointment.

Supervisor Patrick Morroney, Esther Morroney & Judge Welsh

Supervisor Morroney begins new term

On January 2, Patrick Morroney was sworn in by District Justice Richard Welsh and began his second six-year term as a Supervisor for Limerick Township. Patrick and his wife, Esther, are longtime residents of Linfield.

During his first term, Patrick and his fellow Board of Supervisors oversaw the successful completion of the PECO Trail, the Kurylo Preserve Trail, and the Sanatoga SR 422 Westbound on-ramp. Patrick wishes to focus his second term on improvements within Linfield Village, Linfield Sports Park, and

enhance trail connectivity. Patrick is also committed to expanded public outreach so he can hear firsthand from the residents. He can be reached at pmorroney@limerickpa.org. *Congratulations on your second term, Pat!*

Limerick's newest Police Officer - Justin Bennett

At the Board of Supervisor's meeting on Tuesday, February 6th, Chief Matalavage welcomed Limerick Township's newest police officer, Justin Bennett. Supervisor Kara Shuler had the honor of swearing-in Justin.

Justin is a graduate of the Reading Police Academy and holds a bachelor's degree in criminal justice from Alvernia University. Justin was selected by the Department after several phases of grueling and competitive testing. We welcome Justin to the Limerick Township Police Department and wish him all the best as his career with the Department moves forward.

Supervisor Shuler, Officer Bennett & Chief Matalavage

Supervisor Shuler and Al Herr

Albert Herr Commendation

At their meeting on February 6th, the Board of Supervisors presented Albert Y. Herr with a commendation for his years of faithful service to the Limerick Community. He served on the Sewer Authority from 1995-2004. In 2004, he began his service as a Board Supervisor. He proceeded to serve on the Zoning Hearing Board from 2009-2023. As 2023 came to a close, he decided to retire from municipal service to dedicate more time to his 5 grandchildren.

Al has been a resident of Limerick Township since 1956. During his service, he enjoyed watching the township grow and took great care to ensure that growth was done in a beneficial way for the whole community. We congratulate Al on his commendation and thank him for his service!

Have you licensed your pup yet?

DOG LICENSES ARE REQUIRED BY LAW IN PENNSYLVANIA

A license helps make dogs readily identifiable if they are lost.

Even if a dog has a microchip, a license on their collar is clearly visible and helps ensure they make it home, rather than ending up in a shelter where they could be adopted or worse...euthanized.

The cost of a license helps the Department of Agriculture enforce the state's dog law which includes dog retrieval, disease spread prevention, kennel inspections and other dog-related incidents.

A yearly license costs \$8.70

A Lifetime license (dogs must have a microchip or tattoo) costs \$52.70

Fines for unlicensed dogs are over \$300 (a license is a bargain!)

Help protect your canine and get your license today!

Limerick Township Historical Society

1984

545 W. Ridge Pike
Limerick, PA 19468
610-495-5229

www.limerickpahistory.org

As we plan for the celebration of the Limerick Township Tricentennial in 2026, the Limerick Township Historical Society will provide a series of articles called "A Bit of History." These will cover the history of Limerick from before William Penn up to 2026.

The first article is "The Area Before Limerick Township Existed—from Native Peoples to William Penn"; pre-history to Penn's arrival on October 27th, 1682.

The second article will start with William Penn's proprietorship up to when Limerick Township was officially noticed in 1726. The next article in the series will be from 1727 to 1776.

For more information, scan here:

Limerick Township Volunteer

Planning Commission

Chris Haring, Ryan Wall, Bill DeGideo, Keith Daywalt, Ken McLaughlin, Mark Zasowski, and Greg Richardson

The Planning Commission is a group of "citizen planners" that assist with developing master plans and strategies which guide the Township in managing: community growth, changes in demographics, preservation of open space and natural resources, and the implementation of transportation improvements. They also advise the Board of Supervisors on all development related projects to ensure compliance with Township codes and land use regulations, with consideration given on how to best limit the impact on surrounding areas. All properties to be developed are required to be posted with a 24" x 36" sign reporting the project number and name; public participation is prioritized and encouraged, especially from neighboring property owners.

Parks & Recreation Committee

Zach Reiter, Hannah Kaufman, Maria Stralkowski, Fay Crowell, Erin Cohen, Holly Rumler, Stephanie Rumler, Donna Godfrey, and Galen Bieber

The Parks and Recreation Committee is a dedicated group of community volunteers working to advance the personal, economic, social, and environmental benefits of our parks and recreational spaces. Committee members assist at events and advocate for the enhancement of recreational opportunities for all within our community. Members typically bring a variety of skills and perspectives, ensuring that the community's parks and recreation programs and events meet the diverse needs and interests of its residents.

Zoning Hearing Board

Tom Neafcy, Jr., Sam Augustine, Mark John, Tom Petrowski, and Zach Wisler

The Zoning Hearing Board is an independent, quasi-judicial body that reviews all property owner and developer requested deviations from the Zoning Code. Such requests can be for a desired use of the property or changes to building setback requirements. The Board takes into account how the character of the neighborhood could be impacted if a variance is granted. Issues such as the needs of residents and any special features of the property are all taken under consideration. To ensure community feedback, all property owners within 400 feet of a property filing an appeal are sent a notice of the hearing via US Postal Service.

and people who are helping.” - *Fred Rogers*

Volunteer Community Builders

Our volunteers have helped bring to fruition many community-wide improvements that benefit our residents of today, and those who will look to call Limerick “Home” in the future.

*Our volunteers help
plan roadway
improvements
that get you safely
to home and work...*

*...help plan parks,
trails, recreational
spaces and community
events...*

*...works to ensure
proper land-use
regulations for a
livable community.*

Our Volunteers, who give their time and talent, help to make Limerick a desired place for so many to call home. Studies show that the following activities help to plant deeper roots within your own community: exercising in local open spaces, shopping in small businesses, and volunteering locally. These activities also make us happier, healthier, more successful, and more satisfied.

HERE'S AN OPPORTUNITY FOR YOU TO MAKE A DIFFERENCE!

Limerick Township is currently accepting applications for volunteer positions on the following boards and committees:

- ♦ **Alternate for the Zoning Hearing Board** - (5 year term)
- ♦ **Property Maintenance Board of Appeals** - (5 year term)
- ♦ **ACT 209 Committee** - (1 year term)
- ♦ **UCC Board of Appeals** - (5 year term)

Please visit our website to learn more about these opportunities or contact the Township office at 610-495-6432 for more information.

Protecting our Watershed

1 Skippack Pike
Schwenksville, PA 19473
610-287-9383

www.perkiomenwatershed.org

The Perkiomen Watershed Conservancy (PWC) is dedicated to serving the people and communities of the Perkiomen Watershed by conserving and protecting land and water resources through commitment and leadership in environmental education, watershed stewardship, and conservation programs.

The PWC has many programs and learning opportunities for all ages that engage and build awareness about the importance of the Perkiomen Creek and surrounding areas.

Volunteers are at the heart of the PWC and throughout the Perkiomen Watershed. If you are interested in learning more about local environmental and conservation volunteer opportunities, contact the PWC today!

Fun ways kids can celebrate Earth Day!

April 22nd is Earth Day

Here are some things you can do
to make our planet a better place to live.

Here are some
things you can do
to help plants
and wildlife.

- Do not disturb the natural habitats of plants and animals. Do not pick wildflowers or gather critters for pets.

- Talk to people at home or to your teacher about planting a garden to attract butterflies and birds. These gardens provide habitats to replace those taken away by buildings, streets, and parking lots.

- Pet waste has bacteria that can threaten fish and wildlife. Clean up after your dog so its waste can't drain into lakes, rivers, and streams during a rainstorm.

Reduce
the amount of
garbage you make.

Reuse
things instead of
throwing them out.

Recycle
paper, plastic, glass,
and aluminum.

- Fix something that's broken instead of throwing it away.
- When you buy something, carry it home without a bag or take your own bag to the store.
- Avoid using throw-away forks and cups.
- Refill empty bottles of water instead of buying new ones.

- Use both sides of every sheet of paper. Save scrap paper for recycling.
- Buy and use things that are made to last.
- Buy goods that require less wrapping and packaging.
- Reuse empty jars as holders for things like pencils and pens.

- Instead of throwing out food waste and grass clippings, use them to make compost, which turns into new soil.
- Separate trash so you can recycle paper, glass, aluminum cans, and plastic.
- Take old cell phones and other electronic equipment to a recycling center.

Your Part

There are many ways to reduce your carbon footprint. One way is to use less energy. Another is to consume food items that require less energy during the production process.

- Compact Fluorescent Lights, or CFLs, use 75 percent less energy than standard bulbs. Plus, they last longer. Talk with adults in your home about choosing CFLs instead of standard bulbs.

- Help move furniture away from radiators, so heat goes into a room and is not absorbed by the furniture.

- Homes should not be kept freezing in summer and boiling in winter. Ask adults to keep the indoor temperature at 75°F in summer and 68°F in winter.

- To cut down on pollution linked to shipping and packaging food, plant a vegetable garden. Talk with adults who buy your food about choosing food that is grown locally (within 100 miles of home).

- Processed foods, which are frozen, canned, or packaged, carry a big carbon footprint. Eating fresh food reduces your carbon footprint. Whenever possible, choose baked potatoes instead of potato chips. Eat an apple instead of applesauce.

New PA Law Regulates Lawn Fertilizers

Turfgrass Fertilizer Bill

The bill, which was signed into law last July, regulates what fertilizers can be used on lawns, in what amounts, and when. This applies to homeowners, commercial lawn-care companies, as well as professionals who fertilize park lawns, golf courses, and athletic fields.

There are several requirements that homeowners need to be aware of when planning their lawn care. Typically, fertilizers for turfgrass contain three main plant nutrients: Nitrogen, phosphorus, and potassium (potash) - shorthand is NPK, with K being the element letter for potassium. The total amount of each must be listed on the bag, generally as a set of three numbers, and always in the same order. For example, a 20-5-10 grade fertilizer will contain 20% nitrogen, 5% phosphate and 10% potash.

The new law prohibits phosphorus in turf fertilizers, except for organic fertilizers or those labeled as starter fertilizer or for repairing a turf area. It restricts nitrogen to specific amounts based on the rate of application and requires that any slow-release nitrogen contain at least 20% enhanced efficiency nitrogen. Fertilizers for commercial applications must be applied using appropriate equipment that is tested and correctly calibrated.

Provisions of the law mark an effort to reduce contaminated storm runoff from entering our waterways.

Nitrogen and phosphorus fertilizers cannot be applied after December 15 or before March 1, or at any time the ground is snow-covered or frozen. They are prohibited within 15ft of the top of a bank of a lake, pond, wetland, or flowing body of water (stream, river, or creek). No person may apply turf fertilizer to an impervious surface (sidewalk, driveway, etc.), and any inadvertent spills on these surfaces must be removed immediately.

The regulations came into being as it is estimated that fertilizers account for more than 15% of the total nutrient pollution occurring when nitrogen and phosphorus leach or are washed by rain into our waterways. This runoff leads to excess algae blooms that produce toxins harmful to both humans and animals. Excess fertilizer depletes oxygen needed for fish and shellfish survival. It smothers vegetation and increases treatment costs for drinking water. The U.S. Environmental Protection Agency has been encouraging states to create legislation limiting nutrient pollution. To date, neighboring states with similar lawn fertilization laws in place include Maryland, New Jersey, New York, and Virginia.

Responsible practices can assure a healthy and attractive lawn without the addition of excess fertilizer. The most important step is to test the soil where your lawn grows to determine what nutrients your lawn actually needs. Soil tests provide an accurate guide for proper fertilization. Testing is recommended every three years.

Local resource for yard waste recycling

HETRICK GARDENS

YARD WASTE RECYCLING FACILITY
2620 Swamp Pike, Pottstown, PA 19464

Lawn Clippings, Christmas Trees & Fire Wood.**

There is no charge for Limerick Township residents, however, proof of address is required and drop-offs are ONLY accepted during designated times. Please call for more information.

Understanding your new tax bill

Providing emergency services now & into the future

Fire Departments and Emergency Services are in crisis nationwide and we as a Township are tasked with providing these vital services to our residents. This year's tax bill will reflect a necessary increase, just **39¢** a day for the average assessed value, to your real estate taxes to ensure our ambulances and firetrucks arrive when called. Please review the information below to gain an understanding of how the new funding will be allocated.

For comparison:

Last year's tax rate for an average assessment.

Township's portion

This year's new tax rate for an average assessment with the addition of new emergency services taxes.
